2007

March 31

Quarter One Financial Report

Introduction.....	1
Management's Discussion and Analysis	2
Consolidated Financial Statements for the three months ended March 31, 2007.....	3
Notes to the Consolidated Financial Statements.....	6

INTRODUCTION

Mandate

The Saskatchewan Government Growth Fund Management Corporation (SGGF MC) was established in 1989 under Order-in-Council to create and manage investment funds that have been accepted as government administered venture capital funds under the Federal government's Immigrant Investor Program.

Vision

SGGF MC envisions the creation of economic wealth and diversification through investment of immigrant investor capital in Saskatchewan.

Mission

The mission of SGGF MC is to participate in the Federal government's Immigrant Investor Program for the purpose of acquiring relatively low cost capital for investment in the Saskatchewan economy on commercial terms, thereby creating wealth and diversification, while also ensuring a return of capital and nominal investment income to the immigrant investor.

Profile

SGGF MC participates in the federal government's Immigrant Investor Program (IIP). This program acquires lower cost capital for the commercial investment in Saskatchewan, providing small and medium-sized businesses with capital to grow and prosper, and thereby facilitating long-term economic growth and development for the Province.

The ability of SGGF MC to raise additional funds under the IIP ended on March 31, 1999, when a new Federal program was launched and SGGF MC declined to participate. In 2003, the fund companies were closed to new deposits and all investors were required to pay their subscriptions in full by December 15, 2003. The capital currently under management and from the three funds launched in 1999 will require administration for at least the next four years.

SGGF MC manages eight government administered venture capital funds under the old IIP, specifically:

Saskatchewan Government Growth Fund Ltd. (SGGF I);
Saskatchewan Government Growth Fund II Ltd. (SGGF II);
Saskatchewan Government Growth Fund III Ltd. (SGGF III);
Saskatchewan Government Growth Fund IV Ltd. (SGGF IV);
Saskatchewan Government Growth Fund V (1997) Ltd. (SGGF V);
Saskatchewan Government Growth Fund VI Ltd. (SGGF VI);
Saskatchewan Government Growth Fund VII Ltd. (SGGF VII); and,
Saskatchewan Government Growth Fund VIII Ltd. (SGGF VIII).

SGGF fund companies have provided an important source of venture capital financing in Saskatchewan to assist in economic development in the Province.

MANAGEMENT'S DISCUSSION AND ANALYSIS

First Quarter Results

SGGF MC's consolidated earnings for the three months ending March 31, 2007 of \$ 16.0 thousand are a \$29.7 thousand improvement over the comparative period in 2006. The improved results are due to a \$64.2 thousand dollar mark to market adjustment on investments held by SGGF MC. In the first quarter of 2007 SGGF MC adopted the new CICA accounting rules on financial instruments. SGGF MC Management reviewed the investments held and concluded that the investments should be held as available for trading. As a result investments have been recorded at their fair value and changes in investment value charged through the Consolidated Statement of Operations and Retained Earnings.

Management fee revenue for the first three months of 2007 was \$313.3 thousand, down \$58.0 thousand from the same period in 2006. Management fee revenue consists of two components. The first component is a recovery of investment management fees. The second component is a modest mark-up on these management fees used to fund administrative expenditures that are not charged back to the Fund companies. The markup was reduced to 2% from 4%, effective January 1, 2007. Investment management fees charged to SGGF MC declined by \$114.7 thousand in 2007 over the same period in 2006, resulting in a commensurate decline in management fee revenue. Management fees are declining due to a decrease in the asset base on which the fund management fee is calculated. As SGGF Fund companies continue to wind-down operations SGGF MC will continue to experience revenue reductions.

Outlook

SGGF MC expects its results for 2007 to be moderately improved from 2006 due to a decrease in costs in excess of reduced management fee revenue.

SGGF MC will continue to closely monitor its costs to ensure appropriate cash resources to meet financial obligations as the Funds continue to wind down operations.

Key Factors Affecting Performance

- Ability of the fund companies to liquidate their investment portfolios at values and in the timeframe necessary to provide for full repayment of investor capital at maturity.
- Ability of the fund companies to recover their costs of operation from the revenues earned on investment funds under management.
- SGGF operates primarily on a cost-recovery basis and hence operates at or near break-even.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

1. Status of the Corporation

Saskatchewan Government Growth Fund Management Corporation (the Corporation) was established for the purpose of creating and managing fund companies that have been accepted as government administered venture capital funds under the Federal government's Immigrant Investor Program.

These consolidated financial statements include the accounts of the Corporation and its subsidiary, Saskatchewan Government Growth Fund Ltd. (SGGF I). All inter-company transactions have been eliminated on consolidation. The statements are unaudited.

2. Summary of significant accounting policies

The interim financial statements do not include all of the disclosures included in the Corporation's annual consolidated financial statements. Accordingly, these interim financial statements should be read in conjunction with the Corporation's most recent annual consolidated financial statements released on April 25, 2007.

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles. The timely preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Actual results could differ from those estimates which may impact the actual transactions and events reported in future periods.

The accounting policies used in the preparation of these interim financial statements conform with those used in the Corporation's most recent annual consolidated financial statements.

3. Investments

Investments have been designated as held for trading. Changes in the market value of investments are recorded in interest and other income in the Consolidated Statement of Operations and Retained Earnings.
